

NOTICE OF PROPOSED ACTION

NOTICE IS HEREBY GIVEN that on May 12, 2021, the Clark County Department of Environment and Sustainability's Division of Air Quality (DAQ) received an application for a new air quality operating permit for stationary source of regulated air pollutants operated by **Lithion Battery, Inc. (Source ID #18111)**. The source is a lithium-ion battery manufacturer that consists of a cathode and anode coating operation. The source is located at 1350 Wigwam Parkway, Henderson, Nevada 89074. The Control Officer has made a preliminary determination that the application complies with all Clark County Air Quality Regulations, all Nevada Revised Statutes Chapter 445B requirements, and the Clean Air Act (42 USC § 7401, et seq.), and should be approved.

NOTICE IS FURTHER GIVEN that any person may submit written comments on the application and any relevant documents to DAQ during a 30-day public comment period that starts Wednesday, June 2, 2021, and ends Thursday, July 1, 2021. Any written comments must be received by DAQ at its offices at 4701 W. Russell Road, Suite 200, Las Vegas, Nevada 89118 by Thursday, July 1, 2021, at 5:30 PM. Any person may request a public hearing during the public comment period, as provided in AQR Section 12.1.5.3(b), by filing a written petition with the Control Officer containing the petitioner's name, address, daytime telephone number, email address, and reason for requesting a hearing. Comments may be submitted electronically to AQPermitting@ClarkCountyNV.gov. The Control Officer shall consider all written comments, all oral comments if a public hearing is held, and all other documents on the administrative record before taking final action on the permit.

Under the applicable rules, the facility is considered a minor source of regulated air pollutants. Its potential to emit the following regulated air pollutants is projected to be (in tons/year): **PM₁₀=0; PM_{2.5}=0; NO_x=0; CO=0; SO₂=0; VOC=0.86.**

The draft permit, technical support document (with determinations of any reasonably available control technology), application (with supplements), and relevant materials available to the Control Officer are part of the administrative record and open for public inspection at DAQ's offices at the address above; by calling (702) 455-5942 Monday–Thursday, 7:30 AM–5:30 PM; and on the DAQ website at https://www.clarkcountynv.gov/government/departments/environment_and_sustainability/division_of_air_quality/permitting/public_notices.php. Copies may be obtained by contacting Silvia Gonzalez at DAQ's address above or calling (702) 455-8007.

Published on the 1st day of June, 2021.

Theodore A. Lendis, Permitting Manager
